DERANN FILM SERVICES

# Introduction

We are delighted to present this latest edition of the Derann catalogue of SUPER 8 SOUND movies. For 33 years Derann have been the undisputed leader in providing the super 8 film collector with a wide range of quality movies to screen at home.

Despite opposition from some areas of the industry, we have maintained a steady flow of releases and fully intend to do so for as long as the film collector supports us. To enable us to achieve this we are grateful to the Major Film Distributors who support us, and who's product has helped keep film alive.

By screening films at home, the older film buffs have been able to show youngsters just how wonderful the cinema can be, and encourages them to support their local cinema. Without doubt, film has a magic all it's own - nothing can ever quite take it's place.

The Walt Disney films have proven that stunning print and sound quality can be achieved on super 8, and can be compared to the quality obtainable with 16mm film.

We send out regular newsletters and new release information as well as a monthly email list to all our regular customers, do make sure that your name is on the mailing list!, you are then assured of being kept fully up to date with not only new release news, but also what is happening on the "Film Convention" scene.

We also publish a magazine for film collectors, entitled FILM FOR THE COLLECTOR, this is issued about once every 3 or four months, subscription rates, are £14. 00 per four issues (U.K).

Our regular OPEN DAYS are always very popular, with hundreds of films & accessories on sale, and films being shown throughout the day in our cinema. We also organize the now famous and popular **NORTHERN FILM COLLECTORS CONVENTION**, this takes place in Blackpool every November and the **MIDLANDS FILM CONVENTION** in March. As well as these two events we support and attend the **BRITISH FILM COLLECTORS CONVENTIONS**, these are organized by Keith Wilton, and are held twice each year, usually April and October in Ealing. Within the magazine Film For The Collector, is a magazine entitled **SUPER 8 FILM REVIEW**, this magazine is edited and produced by Keith Wilton and is packed with honest film reviews, so if you want to find out about a release - this is the section of the magazine to read.

From time to time we also import super 8 releases, usually these are very limited prints, so all of the titles available will not appear in this catalogue, due to the limited quantity of prints available. For these rare releases you should refer to our news letters.

We are open Monday to Friday 9. 00am until 5.30pm.

The Film Department is closed on **SATURDAY** and **SUNDAY**.

Our Audio Visual department, can supply most makes of T.V, Video recorders, Hi Fi,DVD players and discs. etc etc.

Now relax and browse through this catalogue, and although current, please bear in mind that titles do get withdrawn either due to contractual obligations, or negative damage. Likewise we release new titles on a regular basis, details can be found in our current news letters. We cannot guarantee the supply of any imported title, this is beyond our control.

**ALL FILMS IN THIS CATALOGUE ARE SUPER 8MM SOUND. A SEPARATE LIST IS AVAILABLE IF YOU COLLECT 16MM FILMS.**

HAPPY FILM SCREENING.

## **SOUNDTRACKS**

All films in this catalogue are licensed for sale with an English soundtrack only.

THE COPYRIGHT PROPRIETORS HAVE LICENSED THE MATERIAL CONTAINED IN THIS CATALOGUE FOR NON COMMERCIAL HOME USE ONLY, AND PROHIBITS ANY OTHER USE WHATSOEVER. FILMS MAY NOT BE USED FOR RENTAL PURPOSES

## **FILM LENGTHS**

films are various lengths, many according to their original release. Spool size **DOES NOT DENOTE THE EXACT LENGTH OF THE FILM**, as this may vary according to material & content.

## **STEREO SOUND**

Prints with a stereo sound track require the use of a stereo projector in order to obtain the full enjoyment of the film, however, most stereo tracks will play quite well on a mono projector, you will, of course, obtain normal mono sound only.

## **SCOPE PRINTS**

Where advertised - need an anamorphic lens for projection, from time to time we have used lenses for sale - see latest news letter

## **LAB SPLICES**

Due to laboratory methods of printing, some 8mm prints may contain a lab splice. Regretfully, this is beyond our control.

## **SOUNDTRACKS**

All titles, unless otherwise stated have magnetic soundtracks, with the sound advanced 18 frames, and have a projector speed of 24 f.p.s.

**Always check the film for sound quality before you remove any leaders or tails - it is impossible for us to re-record sound once these have been removed. We accept no responsibility for returned prints if they have been tampered with in any way.**

*THE ENTIRE CONTENTS AND LAYOUT OF THIS CATALOGUE ARE (C) DERANN FILM SERVICES LTD. ALL PICTORIAL REPRODUCTIONS ARE COPYRIGHT THEIR RESPECTIVE OWNERS. NO PART OF THIS CATALOGUE MAY BE COPIED OR REPRODUCED IN ANY FORM WHATSOEVER.*

**EACH FILM CARRIES A PRICE CODE,  
CHECK WITH THE SEPARATE PRICE CODE  
LIST**

**WE STRONGLY RECOMMEND YOU TREAT NEW PRINTS WITH *Liquid Film Cleaner* BEFORE PROJECTING. THIS WILL HELP GIVE A STEADIER PICTURE AND HELP TO PREVENT SCRATCHING.**
